

Lab 2: HTML & CSS Starter

By Jasmin Vega & Em Ishida
Date 4/17/24

Summary of Our Efforts:

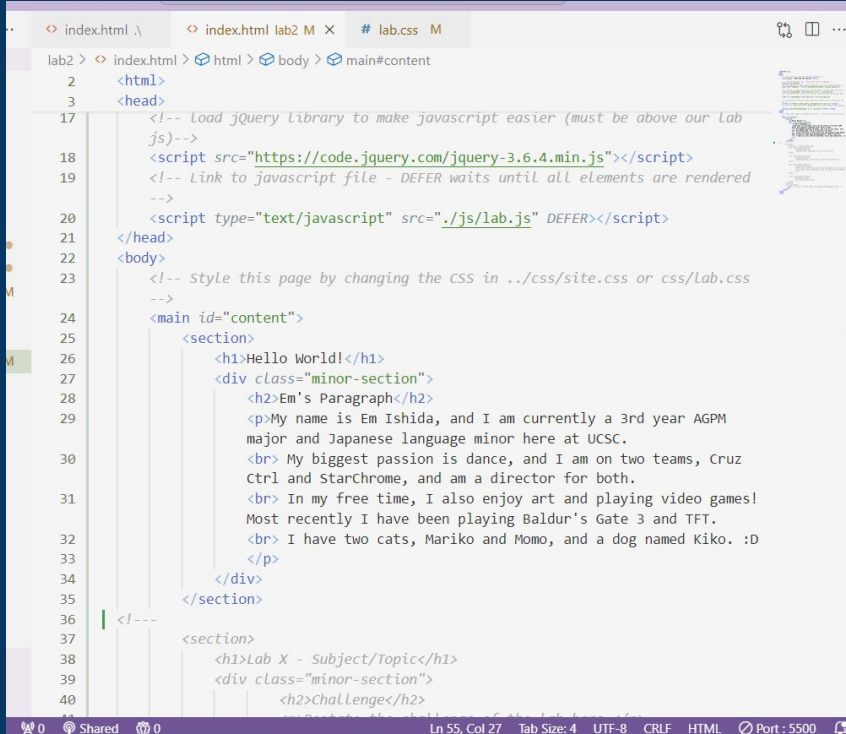

The two of us both created our own individual HTML and CSS files, in order to get sufficient practice. We were unable to meet up in person, but we staying in close communication online and made sure to help each other out when it was necessary. First we each wrote a paragraph about ourselves, then we brought it into the HTML file by adding a section, as well as a header. Following that, we first made sure that the information was appearing correctly in the browser, and then we moved onto editing the CSS file. Here, we both made our own personal customizations to our own files to showcase our individual aesthetics. Finally, we took all our screenshots, compiled them into these slides, and then uploaded our files to GitHub.

HTML Code:

```

Vega's Mainpage

Jasmin Vega

My name is Jasmin Vega and I am an AGPM major at UCSC. I work in retail at Apple in San Jose and really like the idea of exploring different areas of the tech realm, but ideally would love to work at Adobe. I'm born and raised in San Jose my whole life but before college I never really came to Santa Cruz very often.

I am the eldest of three children and am a first generation college student and am one out of two people in my whole family to explore higher education. The other person is currently my older cousin who is currently enrolled at CSU Monterey!!

Lab 2 - HTML & CSS Starter

Challenge

The main challenge of this lab was to figure out making our own webpage with HTML. After creating a plain website with HTML the next challenge was to create a website that has character and customizations with color, borders, and text with information about ourselves and our partner.

Problems

Initially, my main problem was figuring out how to create a plain HTML website because there was no class due to the power outage. After utilizing the sources Prof Wes provided in the modules with introduction to HTML it became much easier. It wasn't required but I really wanted to add a picture of myself from my photo album and it was kind of difficult but with some video watching and finessing I was able to accomplish what I set out to do. I also had a real struggle with adding a colored border to my website in CSS, but I think I was overcomplicating it but I took a break and figured it out.

Reflection

I put a good amount of effort into this lab assignment and am really happy with how it has turned out so far. I'm excited to learn more features as I learn more about HTML and CSS. My current lab 2 has lots of color and I was also able to add a picture of myself which I was really excited to have figured out! I'm especially happy with my lab 2 work at the moment because the style and content came out how I had hoped.

Results

Em and I both successfully created websites that fulfilled our own aesthetics!

Self Evaluation

Self Evaluation Rubric						
Did you complete the assignment and did you complete it on time?	Submitted on time	Up to 1 day late	Up to 2 days late	Up to 3 days late	Up to 4 days late	Do you need to clarify?
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	n/a
Did you collaborate with a partner?	A lot of effort		Some effort		Not this time	Do you need to clarify?
	<input checked="" type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>	n/a
Did you put in earnest effort and provide an articulate summary of your experience?	Excellent	Pretty good	About average	Could be improved	Not this time	What supports this?
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provided a thorough and detailed paragraph describing our efforts
Was the assignment complete, with minimal errors, correct output, and good style?	Excellent	Pretty good	About average	Could be improved	Not this time	What supports this?
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Assignment was turned in on time with all elements complete
How much EXTRA effort did you put into the assignment?	A lot of extra effort		Some extra effort		Not this time	What supports this?
	<input checked="" type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>	We spent extra effort exploring different ways in which we could change the css code, and then worked to customize our pages to our liking
